tiorace Greeley's Arraignment o Tilden in 1868—Tilden's Circu lar of that Year. New York, August 3.

the Editor of the Ohio State Journal: In 1868 the majority outside of New ork city, for John A. Griswold, the Re York city, for John A. Griswold, the Ac-ublican candidate for Governor of this state, was 41,204. To overcome this ma-ority and to elect John T. Hoffman, Jammany's candidate for the guberna-orial chair, Tammany, by a false count, Saured up a majority of 89,150 for Hoff-Company Manhettan Island. This made it cared up a majority of or, 150 mr 110a can on Manhattan Island. This made i mover that he had a majority of 27,940 the State, and he was declared elected. n of the Democratic State Comharman of the Democrate Sachem of Fammany Hall. Soon after this fraud was discovered, and it was known that Tilden was accessory to it, Horace Gree ley sent him the following letter:

On know how thoroughly our city was

"Hobace Greenery."

Instead of regarding this manly appeal, Tilden, the "life long and consistent reformer," athered to Tweed and Tammany, and aided them in the perpetration of other frauds.

Since the publication of my letter charging that, in 1863, Tilden, as Chairman of the Democratic State Committee, issued private circulars to prominent Democrats throughout the State requesting them to telegraph to Tweed, "at the minute of the closing of the polls," the probable vole cast in their respective districts, it has been published that Tilden sent no such circulars, and that the author of the statement lied. To fix the lie where it belongs, I send you a copy of the circular:

ROOMS DEMOCRATIC STATE COMMITTEE,

My DEAR SIE:—Please at once communicate with some reliable person in three or four principal towns and in each city of your county, and request him (expenses duly arranged for at this end) to telegraph to William M. Tweed, Tammany Hall, at the minute of closing of the polls, not waiting for the count, such person's extimate of the vote. Let the telegram be as follows: "This town will show a Democratic gain (or loss) over last year of (number)." Or this one, if sufficiently certain: "This town will give a Republican (or Democratic) majority of __". My DEAR SIR :- Please at once con certain: Ans town wingves beginner can (or Democratic) majority of —."
There is, of course, an important object to be obtained by a simultaneous transmission at the hour of closing the polls, but no longer waiting. Opportunity can be taken of the usual half hour lull in be taken of the usual hall hour init is telegraphic communication over lines be fore actual results begin to be declared and before the Associated Press absort the telegraph with jreturns and interfere with individual messages, and give order

The information asked for in this cir-cular was, as stated in a previous letter, to enable Tweed to determine how much stuffing the ballot boxes in this city would needed to secure a majority for Hoff

STOCKS—There was a sharp turn for the better in share speculation to-day, and the Stock Exchange was the scene of great excitement from the beginning to the close. Speculation centered largely in coal stocks, which were very active, with frequent fluctuations. Some of the bears tried to cover, and prices advanced 165½ per cent. In this marked rise New Jersey Central was the most conspicuous, the stock rising from 28½ to 35, with frequent intermediate changes, and closing at 35½. Delaware & Hudson Canal followed close in the wake of New Jersey Central, and rose from 63½ to 68, closing at the highest point. Then came Delaware, Lackawanna & Western, which advanced from 67½ to 71½, with final sales at 71½. There was great activity in this stock also, and fluctuations were very violent at intervals. Morris & Essex advanced from 90 to 91. There was a marked difference in coal shares between the sales cash, regular and sellers options. In New Jersey Central cash stock brought ½63½ per cent over regular, and also was seasoned and sales were very under star over regular, and sellers were served as marked difference in coal shares between the sales cash, regular and sellers were served as marked difference in coal shares between the sales cash, regular and sellers were served as the coal served as a sales were regular, and sellers were served as the coal se brought ½4½ per cent over regular, and sales were made seller 3 days at 1 per cent, seller 10 days at 1½a2½ per cent, and seller 30 days at 3½ per cent below regular.
